Education

Stanford University

Ph.D. Mechanical Engineering, GPA – 3.72

- Concentration in Fluid Mechanics

Stanford, CA

Mar 2022

Stanford University

M.S. Mechanical Engineering, GPA – 3.7

- Depth in Fluid Mechanics

Stanford, CA

Apr 2018

Utah State University (USU)

B.S. Mechanical Engineering, GPA – 3.95

- Summa Cum Laude
- Emphasis: Aerospace
- Minors: Management and Mathematics

Logan, UT

May 2016

Utah State University

A.S. General Studies, GPA – 4.0

Logan, UT

Aug 2010

Experience

Sandia National Laboratories

Graduate Research Year-Round Intern

- Performed direct numerical simulations using massively parallel computer clusters for compressible high Reynolds number flows and compared to stability analysis for transition modeling [CP1]
- Implemented new boundary condition in massively parallel code architecture using C++
- Obtained and maintained DOE-Q clearance since Jan. 2021

Albuquerque, NM

06/19 – present

Center for Turbulence Research

Graduate Research Student

- Developed reduced order model to study instabilities by using the Orr-Sommerfeld-Squire and the parabolized stability equations for study in laminar, transitional, and turbulent fluid flows [C2, R2, R5, CP2, C3, C5, R6]
- Applied machine learning for study and prediction of peak events in turbulent flow [R4]
- Aided in development of new wall model for LES in prediction of laminar-turbulent transition flow [R1]

Stanford, CA

01/18 – present

Sandia National Laboratories

Graduate Research Summer Intern

- Simulated computational fluid dynamics of multi-component repair garage for hydrogen fuel cell vehicle failure analysis [A1, R3, C4]
- Created all simulation inputs from scratch and performed refinement/parameter studies

Livermore, CA

06/18 – 09/18

Flow Physics and Computation Engineering

Graduate Research Student

- Combined LES modeling with weather forecasting data assimilation techniques to enrich scales of LES models using experimental data from high-fidelity 3D PIV system [A2, C7]

Stanford, CA

09/16–11/17

Sandia National Laboratories

Technical Undergraduate Year-Round Intern

- Performed uncertainty quantification, verification, and validation of computation model of thermal batteries [R7, CP4]

Albuquerque, NM

05/15 – 08/16

High Performance Computational Fluid Dynamics Lab (USU)

Undergraduate Computational Fluid Dynamics (CFD) Researcher

Logan, UT
05/14 – 04/16

- Coded, as part of a team, parts of a CFD strand code (C++ and Fortran) [A3, CP3, CP5]

Experimental Fluid Dynamics Lab (USU)

Undergraduate Research and Creative Opportunities Grant Recipient

Logan, UT
1/14 – 12/14

- Led research and conducted experiment in olive oil tracer particle atomization [C8]

Experimental Fluid Dynamics Lab (USU)

Undergraduate Research Assistant

Logan, UT
12/12 – 03/14

- Assisted CFD validation experiments for safety analysis of nuclear reactors
- Designed and assembled various parts for particle image velocimetry (PIV) experiment

Synthetic Biomanufacturing Center (USU)

Undergraduate Research Assistant

Logan, UT
06/10 – 12/10

- Experimental phase of cohabitating two species in growth reactor for effective bio-diesel algae production
- Presented research finding to professors at conclusion of summer research

Awards

Fall 2016: Stanford Graduate Engineering Fellowship Award

Undergraduate Awards: Academic Excellence Senior (2016), Outstanding Undergraduate Researcher (2015), A-pin award (2014), Outstanding Pre-Professional Award (2014)

Undergraduate Scholarships: George S. & Dolores Doré Eccles Foundation University, Integrated University Program, USU Presidential, and New Century

Spring 2010: High School Salutatorian of 453 students

Skills

Coding: Python, C++, MatLab, Fortran, batch scripts for HPC, LabVIEW, and Vim

Software: ParaView, CUBIT, tecplot, Pointwise, Solid Works, and Solid Edge

Written: Microsoft Office, L^AT_EX, and ≈ 90 WPM

Technical: hand tools, saws, mills, drill presses, and soldering

Biological: autoclave, optical density machine, centrifuge, flow hoods, and pipettes

Leadership and Volunteer

01/20 – Current: Member of the American Institute of Aeronautics and Astronautics

01/15 – Current: Member of the Tau Beta Pi Society

01/14 – 12/17: Member of the American Nuclear Society (ANS)

- Communications Officer (ANS) USU section

01/13 – 11/13: Member of the American Society of Mechanical Engineers (ASME)

01/11 – 12/12: Full-time Service Volunteer for non-profit organization in Atlantic Canada

- Leader over fellow volunteers in door-to-door communications
- Trained and instructed fellow volunteers in presentation effectiveness
- Worked with people providing addiction recovery and life coaching

2008: Eagle Scout
